## PRG Sheffield Enjoys an Extremely Successful InnoTrans 2010

The InnoTrans 2010 Trade Fair at Messe Berlin 21-24 September proved to be a very successful event for PRG Sheffield.

The PRG stand was located in Hall 25 opposite Voest Alpine and was extremely busy for the full week. Numerous leads were generated for the full suite of products and services on display, and there was a significant level of interest in the Company's Friction Management capabilities.

Portec Rail wishes to thank all visitors to the stand during the week. We look forward to developing the new relationships forged at InnoTrans whilst continuing to build on those existing and long standing relationships that have benefited the Company for many years.
